Personal skills

COMMUNICATION SKILLS

My ability to communicate effectively has been developed through various roles where collaboration with cross-functional teams was essential. I have consistently engaged with stakeholders to convey complex technical information clearly, ensuring alignment on project goals and progress.

ORGANISATIONAL / MANAGERIAL SKILLS

I have honed my organizational skills through managing multiple projects simultaneously. By utilizing project management tools and methodologies, I efficiently prioritized tasks to meet deadlines, contributing to successful project completions, such as leading the deployment of a key application feature.

JOB-RELATED SKILLS

Computer Science graduate with foundational skills in frontend development (HTML, CSS, JavaScript) and Python programming. Certified in AI fundamentals and currently training in data analytics using Excel, SQL, and Power BI. Familiar with Git/GitHub and passionate about solving problems with tech and data. Eager to grow and contribute to real-world projects.

DIGITAL SKILLS

Comfortable using digital tools for communication, development, and data analysis. Skilled in Office tools, beginner frontend development, and data analytics platforms

Hobbies

Editing

Science And Fiction
